

## *JUSTICE FOR HOLLIE PARLIAMENTARY CAMPAIGN*

*Please sign the MPs' Pledge on Paedophilia and help protect children from abuse by adults*

*Hallo, I'm Hollie Greig, a 30-year-old Downs Syndrome woman living with my mother Anne in Shrewsbury. I'm happy now but my childhood was a living hell, due to my being continuously sexually abused by my father and older brother, and then they passed me on to their 'friends' who included social workers, teachers, nurses, members of the police and even a Sheriff (Scottish equivalent of a Judge). You might think that because I have Downs Syndrome I am stupid but I can assure you I have normal feelings, also I REMEMBER EVERYTHING THAT HAPPENED TO ME- names, places, who did what to me, and how. So-called 'normal' people block out unpleasant experiences but we DS people can't do that, we remember everything clearly. I still have nightmares about what I went through years ago and am really, REALLY angry that people do these things to children, I want justice for myself and the other children abused by the paedophile gang that tortured me, I want people to know who covered up for them and are still doing so, I want to prevent any other children ever having to suffer what I went through as a child.*

*Please, as a newly-elected or re-elected MP, regardless of all the political issues you'll be dealing with, pledge yourself first and foremost to protect children, who have no voice of their own and are totally at the mercy of the adults around them. Let Parliament be filled with real human beings with normal feelings, especially for children.*

*Thanks for supporting this Campaign and best wishes for your work in Parliament.*

*Hollie*
