

WARNING

**we the people are under attack!
history is repeating!**

Brave citizens before us stood up against a corrupt government to bring us Independence.

These men created the Constitution to PROTECT the PEOPLE from their GOVERNMENT.

We NEED our right to speak, our right to protect ourselves, our right to privacy.

If we ever lose these rights we will become slaves! There is no turning back! No way to fight!

The Neo-Cons and Big Cooperations are working together, companies like:

They each have their own goals, you are of no concern, they make the laws...

They used terrorism as an excuse to protect their investments by:

- 1) **Overriding the British Constitution, the very basis of our freedom**
- 2) **Implementing implants and RF I.D technology to track everything**
- 3) **Suppressing technology from the public, such as energy alternatives**
- 4) **Merging the European Union with the North American Union and the Asian Union to erase all borders**
- 5) **Outsourcing jobs and British property, even roads and other public services to foreigners**
- 6) **Spying on every conversation, website and purchase without suspicion**
- 7) **Reducing education funding, and requirements to "dumb down" our children**
- 8) **Ambushing us with propaganda, confusion and brainwashing us with lies.**
- 9) **Controlling ALL media, News, TV, and soon the internet with censorship**
- 10) **Working to ban all weapons in the UK, while selling to foreign governments**
- 11) **Promoting ignorance and apathy, so you only care about the latest product**
- 12) **Making voting machines electronic so they can be easily manipulated**
- 13) **Foiling fake attacks so they can play hero as they take more of our rights**

Lies become culture in movies and art then is spoken as truth by your peers. There's far too much info to fit on this page, please protect yourself and your children. Research the truth, find out about **deadly vaccines, codex alimentarius, HAARP, chemtrails, concentration camps, the lies behind 9/11 and 7/7, Lawful Rebellion, & your rights!**

- If you don't know your rights... you don't have any.

When they steal your rights, RESIST! Don't sit back quietly, SPEAK UP!
